## **Technology Value Questions**

**Workload test:** Does this technology give me more work to do or less? If more, is the ROI worth it? **Focus test:** Does this technology distract me from the mission? If the ROI is worth it, how can I minimize the distractions?

**Relational test:** Does this technology enable genuine community or enable isolation and anonymity? **X-Factor test:** Does this technology take your ability to an entirely different level? Can you put in the same or less effort and return greater returns?

| Internal Tools  |  |
|-----------------|--|
| Gmail           |  |
|                 |  |
| Google Docs     |  |
| Google Calendar |  |
| Dropbox         |  |
|                 |  |

| Evernote/Genius Scan |  |
|----------------------|--|
|                      |  |
|                      |  |
|                      |  |
| External Tools       |  |
| Wordpress            |  |
|                      |  |
|                      |  |
| Facebook             |  |
|                      |  |
|                      |  |
| Vimeo                |  |
|                      |  |
|                      |  |
| Animoto              |  |
|                      |  |
|                      |  |
| Splice               |  |
|                      |  |
|                      |  |
|                      |  |
